Twenty years ago, a group of determined parents believed that there was a better way for their children to learn. Pushing beyond the boundaries of the complexities of autism, they dreamed of an environment designed to meet the specific needs and behaviours of their children and others they did not yet know about. Their hope is today's reality – Janus Academy.

Janus Academy implements a highly intensive program designed to foster maximum growth and strives to create a positive learning environment that allows each student to thrive. Class sizes are kept small to maintain a 1:1 teacher to child ratio when providing individualized instruction as well as opportunities to learn within a group setting. Janus Academy has been growing and flourishing, gaining recognition and respect year after year from the autism community and various education-based organizations. Janus Academy students thrive in this academic environment, developing friendships and social skills that provide a richness of life that might not other-wise be attainable.

Join us in this very special annual anniversary event and help us to continue to provide the gift of **hope** to the students at Janus Academy and their families.
