Janus Academy

Janus Academy Society is a non-profit charitable organization that operates an independent school for children with autism and a community day program for adults on the autism spectrum.

Our education principles follow the Alberta Education Curriculum (modified) and are adapted to suit the learning needs of each individual student. Janus Academy's teaching techniques are based on the foundations of Applied Behaviour Analysis (ABA) combined with extremely low staff-to-student/participant ratios, and natural environment teaching (NET).

Operating for over 20 years, and with the support of its donors and parents, Janus Academy has been able to address some of the autism community's most pressing needs, including a safe and caring environment for learning.

Join us at this very special annual event as we *"Follow The Yellow Brick Road"* on our journey to continue to provide the gift of hope to the students at Janus Academy and their families.
